

April 6, 2020- For immediate release:

City Park closed and Goose Pond increases security

Effective Saturday, April 4, 2020 at 5:00 pm, City Park will be closed to vehicle traffic. We are still encouraging people to use the walking trails within the park, but we ask that everyone comply with social distancing policy and no more than 10 people in a group or space at a time.

Goose Pond Colony is deemed an essential business supporting outdoor activities within the Alabama Department of Health Public Guidelines and will be operating on regular schedule until further notice. However, due to the closure of City Park, Goose Pond Colony will be increasing its security to ensure that the guidelines put in place by the new State Health Order are being followed. These guidelines include social distancing policy and activities involving fewer than 10 people.
